

K-LOVE radio station is what helps to get me through my day. As a nurse working in the nursing shortage it is hard to keep a good attitude. Listening to K-LOVE on my way to work, at work at the nurses station, on my way home, and when I get home assists me to keep the good attitude that God wants me to share with others. K-LOVE also has this effect on the individuals and the whole community, and it would be devastating if it was displaced.
